

# Be Green – Recycle!

No need to sort recyclables. Put them all together in your Recycle Bin.

About one third of household trash is made up of packaging and printed paper that is recyclable. By separating recyclables from garbage and putting them at the curb for collection, we contribute to a healthier, cleaner environment.

Recycling saves energy, conserves natural resources and reduces demand for landfill space.

Recycling also creates jobs and economic development.

## Accepted:

No need to sort recyclables. Put them all together in your Recycle Bin.
